

About Sandie Scherer

There are many qualities and skills that go into being an excellent real estate professional - integrity, in-depth community and market knowledge, marketing savvy, effective negotiation skills, a high-quality professional network, and great listening skills. All of which are hallmarks of how I work.

That said, in my experience as a Maple Ridge real estate professional and life-time resident, I've also found that providing the very best service is essentially about putting my clients first. This means keeping myself accessible, being a great listener as well as a great communicator, and responding quickly to your needs. **I love what I do!** I enjoy and look forward to creating life-long relationships with my clients.

I was born, raised, and still reside on acreage in Whonnock. I have been licensed in Real Estate since 1999. I worked with a high profile, real estate team from 1997 to 2007, where I received an incredible amount of experience and knowledge. I developed and maintained all marketing materials, handled client inquiries, drafted contracts and successfully guided both Buyers and Sellers through the real estate process. I was also very involved with subdivision process and spent several years on new construction sites assisting buyers with the vast amount of details involved with buying a newly built home. Throughout my tenure with the team, I recognized the importance of communication, sharp attention to all details and building quality, life-long relationships.

My prior employment history, spanning some 20+ years, combined my accounting background with my ability to organize and skill in ensuring that no detail was overlooked. I spent many years as comptroller for a Honda dealership and a large auto parts company in the lower mainland. I, latterly, developed and executed customer incentive travel programs which saw 50 - 700 + people enjoying the Nascar and Indy Cart races, as well as 7 - 10 day cruises throughout the Caribbean. I was a member of a team who organized yearly trade shows for up to 10,000 attendees, and was responsible for marketing programs, both inside and outside the company.

I have successfully completed a variety of courses offered through U.B.C. and B.C.I.T., and I graduated from Garibaldi High School. I continue to upgrade my skills through the ongoing courses to better serve the needs of my clients in our ever-changing industry.

I have one son, Michael, who is presently working toward his PhD in Experimental Medicine through U.B.C. and doing his research at B. C. Children's Hospital in Vancouver.
