To whom it may concern:

I am an attorney who was referred to Processing Specialists by a licensed real estate agent and I in turn referred family members and friends to Processing Specialists to handle our short sales.

These short sales ranged in price and location; from high end waterfront condominiums in Miami Beach to a small home on the Upper East Side of Miami. Without exception, Processing Specialists successfully facilitated the short sale at hand.

From personal experience, I have found Processing Specialists to be professional, capable and they deliver results! Gaby Hall is the highly qualified individual at the helm of Processing Specialists.

Gaby and her team are responsive and effective. From filing to closing, Processing Specialists manages the short sale process responsibly and efficiently. Processing Specialists has the necessary experience to get the job done! For me, peace of mind is priceless - that is why I've consistently worked these transactions with Processing Specialists.
