TRAILS

SAFETY & IMPORTANT INFORMATION

With all there is to experience during your stay, we ask you enjoy Kapalua Resort's trails safely and responsibly using the following guidelines:

STAY ON MARKED TRAIL

Most accidents happen when hikers leave the established trail and disregard warning signs. If you are uncertain about a trail, turn around and return the way you came.

BRING WATER

Carry at least 2 liters of water per person for a full day hike; dehydration can be serious.

HIKE WITH A PARTNER

Don't hike alone. Keep track of each other and re-group near junctions or when the trail gets obscure.

AVOID UNDUE RISKS

Climbing rocks and following narrow ridgelines or gulches off the trail can place you in danger—don't take the chance.

MONITOR THE WEATHER

Be mindful of quick weather changes especially when hiking along the mountain tops or ridges.

WATCH THE TIME

Hawai'i does not have daylight savings time and night falls quickly. If you are caught in the dark, stay where you are and use your cell phone to call Security at 808-665-9101.

WEAR PROPER CLOTHING

Wear closed toe shoes and dress in layers to protect your skin from the sun. A hat, sunglasses, sunscreen and light raingear are recommended.

EXPLORE THE MOUNTAIN TO THE SEA ALONG THE KAPALUA TRAIL SYSTEM

Explore lands rich in history filled with flora and fauna found no where else on earth. Our mountain trails offer spectacular views as they wind around the Maunalei Arboretum, across ridges and through a former golf course. Our Coastal Trail provides an accessible shoreline corridor for viewing abundant marine life and scenic ocean panoramas. Look for *green sea turtles*, *dolphins* and *humpback whales* frolicking in the Pailolo Channel.

Along parts of the coastal trail you may find nesting seabirds called *'ua'u kani*. Every year they return to raise their young; while the adults forage for food, their fuzzy gray chicks wait patiently in lava rock burrows along the shore. Please be respectful of their habitat and stay on the trail. Today, native seabirds are protected by federal law.

We invite you to enjoy the natural beauty and resources and ask that you to please respect nature and leave a minimal impact along the way.

Fleming Beach Park. When completed, the 3.5-mile trail will reach historic Honolua Bay, where the voyaging canoe Hokule'a began its maiden voyage to Tahiti, launching the Hawaiian cultural renaissance in spring 1976, and where surfers all over the world come over to enjoy its winter swell.

Honolua Ridge & Maunalei Arboretum Trails

Throughout the Maunalei Arboretum you'll discover plants from around the world as well as native Hawaiian plants. The Maunalei Arboretum was created 80 years ago by D. T. Fleming, the visionary plantation manager of Honolua Ranch. He traveled the world seeking new plant and tree species that would complement his island home and planted them like a lei encircling the mountain top.

The Maunalei Arboretum offers three suggested trail routes, ranging from Easy to Moderate.
