

PrimeSource Real Estate

Providing Comprehensive Real Estate Services to Home Buyers and Sellers

Why join PrimeSource Real Estate?

Have you tried doing this exercise?

Last year, I made \$

My broker kept % = \$

Now, think of that number, the last one. The number you deserved to keep but you didn't. Now think of what you could have done with that money...

Now ask yourself: Was it worth it? Did my brokers give me enough so they could keep that amount of money?

If YOU were a **PrimeSource** Agent the math would be a lot simpler. The number you made would have been the amount you'd kept.

One of the main reasons why some Agents pay a lot of their commissions out to the companies is because they think that working for a well known company is what makes the difference.

Well, let us ask you this...

Have you ever had a referral from an old client?

If you have...do you think they referred to you because you worked for a recognized company? Or because **YOU** gave them the best service & results possible?

Today people look for homes online. Do you think you have more chances getting those clients to call you because you are part of a recognized company or because your online presence is stronger than others? Just imagine how much money you could save if you keep 100% of your commissions by only paying \$35 a month! At **PrimeSource** you get included with your benefits your entire commissions paid right at closing.

Don't give any more of YOUR money away! Join us, keep your commissions and make more money!
