Re: Recommendation of Victor Zolezzi and Linda Merino

To Whom It May Concern:

As attorneys who specialize in estate planning and administration, we have been professionally acquainted with Victor Zolezzi and Linda Merino for over four years. We are members of two of the same estate planning professional groups, so we have had many opportunities to interact and get to know each other well. They are well-liked and respected in our community for their friendliness and professionalism.

We also have had the pleasure of seeing how they work with their clients. Victor and Linda provide not only the vast knowledge required to facilitate a successful and pleasant real estate transaction, but also are a wonderful resource for some of the complex challenges that arise during the process of selling or deciding to sell a property. When they assisted a Trustee client of ours with selling a house for an incapacitated person, they showed tremendous sensitivity for the situation and helped provide resources for respectfully cleaning out the house. The extra support given to our client as she worked through an overwhelming process is priceless. Victor and Linda approach their work with compassion and dedication, which are crucial when assisting clients in these circumstances.

We highly recommend Victor and Linda.

Warm regards,
